CONCEPT 2

IT IS NOW SCIENTIFIC FACT THAT OUR PRESENCE ON EARTH HAS CONTRIBUTED TO AN INTERRUPTION IN THE EARTH'S CLIMATE. SMALL WEATHER STATIONS, SUCH AS THE ONE THAT HAS EXISTED ON THE LA TROBE TRIANGLE SITE FOR THE PAST 60 YEARS, HAVE SLOWLY WATCHED AS OUR IGNORANCE AND ARROGANCE HAVE ULTIMATELY LED TO A SLOW, BUT STEADY INCREASE IN TEMPERATURE. IN LIEU OF THE ABBOT GOVERNMENT'S RECENT FUNDING PUSH FOR BJORN LOMBORG'S CONSENSUS CENTRE WE PROPOSE THAT WE RECLAIM THE SITE AND ITS PROMINENT CORNER LOCATION TO DISRUPT THE CURRENT AGENDA OF BELITTILING THE ISSUE OF CLIMATE CHANGE.

TO ALLOW THE SITE TO BE A BEACON THAT HOLDS US AND OUR ELECTED OFFICIALS ACCOUNTABLE FOR OUR JOINT IMPACT ON OUR CLIMATE AND ON THE CITY OF MELBOURNE. THE ONCE INTERNALISED WEATHER DIALS AND DATA WILL BE PROJECTED OUT INTO A LARGE PUBLIC DISPLAY THAT WILL REINFORCE OUR IMPACT, WHILE OFFERING UP A FORUM FOR THE PEOPLE OF MELBOURNE TO VOICE THEIR CONCERNS, SO THAT WE MAY EVENTUALLY BE ABLE TO REACH A REAL CONSENSUS ON WHAT WE AS A COLLECTIVE FEEL IS AN APPROPRIATE WAY TO TACKLE CLIMATE CHANGE.
